

# DIGITAL TEACHING FELLOWS

2018

## Program Overview

- The Digital Teaching Fellows program engages a small group of faculty members at Rutgers University-Camden in an exploration of instructional technologies to promote dynamic student learning.
- This year, the program expanded its focus to include strategies for hybrid and online teaching.
- Two full-day workshops were conducted on May 22nd and 23rd.
- One highlight of the program this year was a focus on active-learning, which included a visit to the Discovery classrooms in the state of the art Nursing & Science building.
- Special thanks to past Fellows Joan Mazelis (FAS), Dinesh Iyer, (SBC) Ram Gopalan (SBC), Ruth Anne Robbins (Law) and Wanda Williams (SNC) for their valued participation.

## Program Outcomes

Feedback  
From  
Fellows

"Thank you for an insightful and engaging experience. I learned a lot!"

"This has been a wonderful two-day workshop! Thank you so much!"

"I hope that I will be able to not only enhance pre-existing courses, but design new courses differently."

### Post-workshop survey assessment

2018 Fellows indicated that the following session topics were particularly worthwhile, rating them as 'Very Valuable' or 'Valuable'

- Using your iPad
- Student polling
- Active learning tools and strategies
- Kaltura video and accessibility
- VoiceThread
- Creating content with Adobe Spark

### Future directions

2018 Digital Teaching Fellows will present their technology-enriched course redesign during presentations held on October 19th and February 8th.
